

Project Status Report - 11/11/19

Northrop Grumman

Project Status Summary

Percent Completion: 4%

Scope	Schedule	Cost	Risks	Quality
-------	----------	------	-------	---------

We are slightly behind schedule, because we have had difficulty finding datasets that meet our requirements. As a result, we also haven't begun researching algorithms, which we planned to complete this week.

Work Planned for Last Week

Last week we were planning to finalize which datasets we want to use and which models we would like to research. Furthermore, we wanted to do more analysis on the work done by the previous team so we can determine if we can apply their work to ours.

Work Completed Last Week

Last week, we went through a lot of what the previous team did, and discovered what datasets they used. We also found several datasets that we might use this year, and contacted people to try and get access to some of them. We also submitted the requirements document. We were unable to finalize which dataset we plan on using, and we didn't get any research done on the algorithms.

Work Planned for Next Week

Next week, we plan to finish selecting datasets and researching algorithms. By the end of the week, we should have a tentative list of algorithms to implement, as well as the datasets we plan to use.

Deliverables and Milestones

Milestone/Deliverable	Planned	Forecasted	Actual	Status
Requirements doc	10-31-19	11-4-19	Finished	Submitted
