

Project Status Report - 11/17/19

Northrop Grumman

Project Status Summary

Percent Completion: 6%

Scope	Schedule	Cost	Risks	Quality
-------	----------	------	-------	---------

We are still slightly behind schedule. We have found a few datasets we think will be suitable, but were not able to get them on the Northrop machine as we wanted. Still haven't completed research on algorithms to implement.

Work Planned for Last Week

We planned to finish selecting datasets and researching algorithms. By the end of the week, we should have a tentative list of algorithms to implement, as well as the datasets we plan to use.

Work Completed Last Week

We found a variety of datasets that looked suitable. As a team we discussed which algorithms we wanted to research and explore, and divvied up who would research each of the algorithms. We also set up the last couple of meetings with our sponsor for the semester and got time and space reserved for those.

Work Planned for Next Week

Next week, we plan on meeting with our sponsor to go over our preliminary research on algorithms. We need to get datasets on the provided machine as well as setup SSH so we can remote in. Team members still need to get their keys from the Idea Forge coordinator.

Deliverables and Milestones

Milestone/Deliverable	Planned	Forecasted	Actual	Status
Project Presentation 2	12/4/19	12/4/19	In progress	On schedule
