

Project Status Report - 11/4/19

Northrop Grumman

Project Status Summary

Percent Completion: 4%

Scope	Schedule	Cost	Risks	Quality
-------	----------	------	-------	---------

We are on schedule with our project and are currently working on finding compatible datasets for our project.

Work Planned for Last Week

Last week, we focused on completing the requirements document. We also received the computer from Northrop Grumman so we planned on setting up the machine so we could look into the models created by the previous team.

Work Completed Last Week

Last week we finished up writing the requirements document. We also met with our sponsor, where we were able to clarify some aspects of the project as well as update them on the status of the project. We were also able to setup the machine which enabled us to look into the models and datasets previously used.

Work Planned for Next Week

Next week we are planning to finalize which datasets we want to use and which models we would like to research. Furthermore, we would like to do more analysis on the work done by the team so we can determine if we can apply their work to ours.

Deliverables and Milestones

Milestone/Deliverable	Planned	Forecasted	Actual	Status
Requirements doc	10-31-19	11-4-19	Finished	Need to submit
