

Project Status Report - mm/dd/yy

Northrop Grumman

Project Status Summary

Percent Completion: 12%

Scope	Schedule	Cost	Risks	Quality
-------	----------	------	-------	---------

Due to the uncertainty about the exact end results the sponsors wanted our schedule has been behind. We are actively working on recovering now that we have a better understanding of the scope of our project. Due to being behind schedule we think we may have to cut corners to achieve our final report, but nothing of extreme value will be lost in doing so.

Work Planned for Last Week

Initial research and work on trello tasks. Individuals would pick tasks to work on.

Work Completed Last Week

Revised how we would implement YOLO and will now work using PyTorch. We did not choose tasks because we need to work on understanding PyTorch first.

Work Planned for Next Week

Everyone needs to do some work to familiarize themselves with and learn PyTorch.

Open Issues

Improving tracking in our dataset because there are gaps in frames where the bounding box disappears.

Deliverables and Milestones

Milestone/Deliverable	Planned	Forecasted	Actual	Status
N/A	N/A	N/A	N/A	N/A
